

Meet Mike!

Greetings from Thunderbolt!

Dear Musical Explorers,

My name is Mike and I play an instrument called the French Horn. Even though it looks like there are lots of tubes in my instrument, it's actually one long tube that has been twisted over and over. If you unrolled my instrument, it would be nearly 18 feet long! I can't play and sing at the same time, so I hope you will sing for me at the concert in December! My friends and I look forward to meeting you!

Your pal,
Mike
