

Dear Musical Explorers,

Have you ever been to the beach? Well I live on one! Tybee Island is my home, and I love to sing and play guitar there. I started playing guitar with my friends at school when I was in second grade, and I started playing the blues when I was in high school. This is a picture of my first concert!

You are going to learn two of my favorite songs—let me know which one you like best!

Your friend,  
Eric
