

# We asked Laiken...

## What is it like singing in a band?

Singing in a band is amazing! I love being the leader of a team that works very hard to create awesome music.

## How did you learn how to sing?

I learned to sing from church. During my school years I sang in choir. Now I have a vocal teacher who helps me maintain my voice.

## Why do you like singing soul music?

I grew up listening to soul music. With soul music it can make you feel happy, help you through a bad time, or even sail you off into your dreams. It makes you feel good!

## What was your favorite book or story when you were growing up?

I have so many! My favorites were the Baby-Sitters Club Series and any kind of scary book - especially a series of books called "Goosebumps." Scary movies are still my favorite - if it's scary, I've probably read it or seen it!
